

# Rotary clamp cylinder——QCK Series

#### Product series

### Installation and application

- 1. Dirty substances in the pipe must be eliminated before cylinder is connected with pipeline to prevent the entrance of impurities into the cylinder.
- 2. The medium used by cylinder shall be filtered to 40  $\mu$  m or below.
- 3. Anti-freezing measure shall be adopted under low temperature environment to prevent moisture freezing.
- 4. If the cylinder is dismantled and stored for a long time, please conduct anti-rust treatment to the surface. Anti-dust jam cap shall be added in air inlet and outlet ports.
- 5. To insure the life-span of cylinder and jig, please use flow control valve to control the speed of cylinder.

#### Criteria for selection: Cylinder thrust

Unit: Newton(N)

Bore size Rod size		A disast sa	Operating pressure(MPa)

## Rotary clamp cylinder

## AITTAC

#### **QCK Series**

#### Symbol

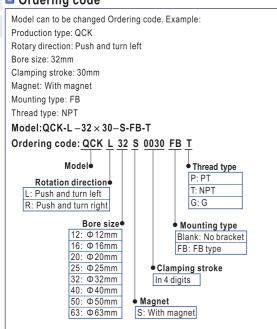

#### Product feature

- 1. It can be used on welding fixfure, the QPQ surface treatment prevent piston rod damage by welding slag; better than chrome plated piston rod.
- 2. The front cover with stainless steel dust scraping ring, can keep the dust and welding slag out, and protect cylinder internal parts.
- 3. Strong magnet is optioned for  $\,\Phi\,32\,\sim\,\Phi\,63$  bore size , which can be used in high magnetic fields.
- 4. The mounting dimension of body is the same as ACQ series, can use ACQ series' accessories.

#### Specification

<u> </u>											
Bore size(mm)	12	16	20	25	32	40	50	63			
Acting type		Double acting									
Fluid		Air(to be filtered by 40 μ m filter element)									
Operating pressure		0.15~1.0MPa(23~145psi)(1.5~10bar)									
Proof pressure		1.5MPa(215psi)(15bar)									
Temperature °C	-20~80										
Speed range mm/s	30~300										
Rotation angle	90° ± 10°										
Rotation direction	Turn left or turn right										
Rotation stroke mm		7.5		9.5		15		19			
Clamping stroke mm	10 20		10 20 30			10 20 30 50					
Stroke tolerance	+1.0										
Cushion type	Bumper										
Port size ①		M5	×0.8			1/8"	1/4"				

① PT thread、NPT and G thread are available

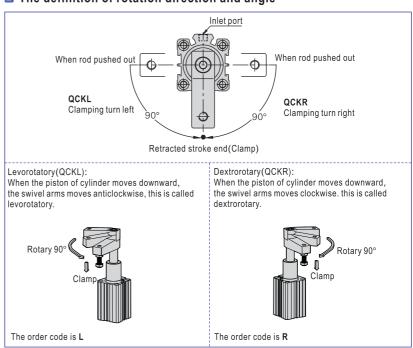

Add) QCK series are all attached with magnet, please refer to Page 403~426 for the specific content of sensor switch.

#### Explain of model

- 1 Back flange is same as ACQ series.
- ② When the thread is standard, the code is blank.

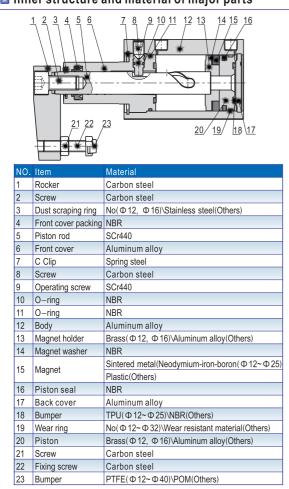

#### ■ The definition of rotation direction and angle

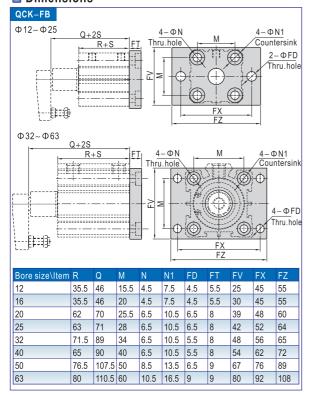

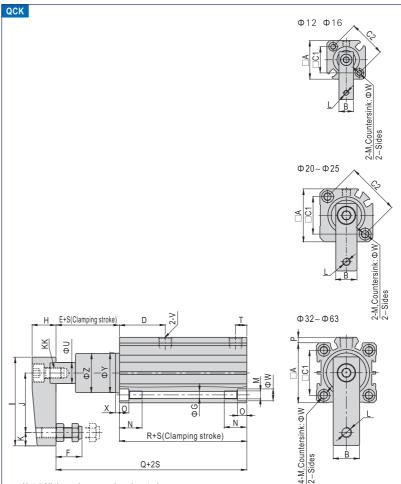

#### **QCK Series**

#### Inner structure and material of major parts

QCK

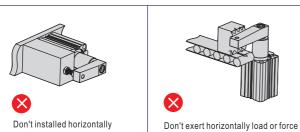

#### Installation and operation

- 1. To insure the life-span of cylinder and jig, please use flow control valve to control the speed of
- 2. The method of installation are mounted by flange on top or bottom

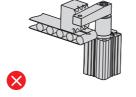

- 3. Befor the cylinder is connected to pipeline sundries in the pipe must be eliminated, or may cause leakage.
- 4. Please clean the piston-rod and dust scraping ring to protect the cylinder
- 5. The cylinder using normal magnet ring can use the same sensor as ACQ series. For the cylinder using strong magnet ring we suggest using AirTAC's CS1-69AM sensor.
- 6. Because the rotary force is strong when the cylinder's acting, we suggest using flow control  $% \left( 1\right) =\left( 1\right) \left( 1$ valve to control the speed to protect cylinder.
- 7. Please install the cylinder following the right diagram
- 8. The installation method as the diagram below is wrong, and will injure the cylinder and shorten the cylinder life.

stroke

workpiece when clamped

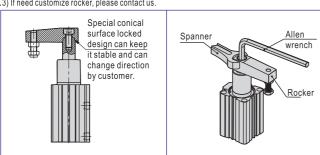

- 9.1) The design of rocker can keep it stable and can change direction by customer.
- 9.2) Please follow the diagram below on right side to assemble/disassemble the rocker by spanner and allen wrench; don't hold the body to assemble/disassemble rocker, or will damage the  $\,$

on bevel

9.3) If need customize rocker, please contact us.

#### Accessory and sensor switch

- $1. \ The\ accessory's\ ordering\ code\ is\ same\ as\ ACQ\ series' (please\ refer\ below\ table), if\ need\ front$ flange, please contact us.
- 2. Accessory's dimension please refer to QCK-FB dimension.

Bore size\Accessories	FB	Material
12	F-ACQ12FA	A1
16	F-ACQ16FA	Aluminum alloy
20	F-ACQ20FA	
25	F-ACQ25FA	
32	F-ACQ32FA	Croy cost iron
40	F-ACQ40FA	Grey cast iron
50	F-ACQ50FA	
63	F-ACQ63FA
